

Lot's of Little Piggies Come To This Market

Harvest Valley Foods goes global.

(PRWEB) April 1, 2006 -- Lot's of organic piggies are at the Stoltenberg farm and it has been decided that it is time to let the world know and go global.

George and Betty Stoltenberg established Stoltenberg Swine in 1959 by purchasing 6 bred gilts on a Sunday afternoon. As the years went by, the hog operation grew to 400 sows producing over 8,000 pigs per year. Don and Jeanne Stoltenberg, owners of Harvest Valley Farms have down sized Stoltenberg Swine to a small select high-health herd where the pigs are grown naturally for Harvest Valley Foods without growth stimulants, antibiotics, animal protein or animal fat. In addition, they have added an onsite general store that offers additional organic meat products, health and dietary items.

“We are very proud of our organic meats and want to share it with the world,” states owner Don Stoltenberg. “We needed a way to reach the masses to share the good word about what we have available.”

Harvest Valley Foods launched its first-ever website. This site features online ordering, recipes, newsletter and additional unique food items for the health conscious shoppers. Omaha-Metro residents will also be able to take advantage of Market Express where orders can be placed via the website and picked up at the area Farmers Market.

The newly launched website is www.harvestvalleyfoods.com. For additional information about this, or any other product of Harvest Valley Foods, be sure to visit our website or contact us by phone at 402-291-9593.
